

**SINCE 1999**  
EXPORTING FROM PERU  
TO THE WORLD

# About Us The Company

CHAVIN is the result of the vision, enthusiasm and dedication of its founders, as well as the effort and commitment of each one of its collaborators, who day after day, do their best as professionals and people to contribute to the welfare and development of their families and communities in harmony with the environment.

Since 1999, CHAVIN works with pride and care to cultivate, process and export a broad range of agroindustrial products for highly demanding markets and clients.

CHAVIN, a word from the Quechua language of Peru, is the name of one of the most important pre-Incan civilizations. Its choice as the name of our company highlights our aim to emulate the grandure and timelessness of this civilization and of our company.

Our fields are privileged with a climate that allows us to harvest our incredible produce practically year-round.

## Location

The strategic geographic location of the Valley of Casma – Ancash on the north coast of Peru (380 km north from Lima) offers fertile soils and a tempered climate all year-round, creating the natural conditions necessary to achieve the highest levels of productivity and quality.

## Shared Corporate Values

Our values and philosophy, based on loyalty and trust, allow us to create and maintain outstanding long-term client relationships.

# Quality and food safety

We process fruit and vegetable production from our own certified fields with controlled holistic cultivation. Our own cultivation advisors control our products from the start to finish, which means we check every detail from seed selection to harvest. The rich soils enable us to produce the best vegetables and fruits available.

We continually train our professional staff and technicians, at both the field and packing levels, in order to ensure premium food quality and safety in our products, which regularly exceed customer's expectations.

CHAVIN is dedicated to producing and supplying fresh and frozen, high quality agro food products under rigorous procedures and controls, together with a complete traceability system, which has been proven to fulfill quality assurance audits.

The company has obtained the following quality certifications: GMP HACCP (Hazard Analysis Critical Point), GLOBAL G.A.P, GAP, KOSHER, ORGANICA, BRC certificates under the third party audit.

## Markets

We export to over thirty countries on five continents.

# Agri - food Packaging Facilities

In the city of Casma-Ancash, CHAVIN has three process plants specialized in agro-food production, which makes it the largest and most important agro-food industry in the middle northern section of Peru.

CHAVIN invests regularly in the renovation of its equipment and machinery in order to keep pace with technological advances. It also invests in its people, thus ensuring ideal work conditions which lead to greater capacity, efficiency and productivity for the benefit of our clients. Our installations, equipment, process workflows, procedures, practices and customs are continually audited by our clients' food safety specialists and by international certification companies.
